### 1080P 33X Network Explosion-Proof PTZ Camera

#### Business opportunities

MS7HDS3033V is a HD Explosion-Proof Network Camera. It features 1080P resolution, H.265 network video compression and 0.0002Lux @B/W super low illumination, allowing users to surveil and control through network from anywhere with high quality video image.

After our reduplicated tests, this product is tough enough to withstand the most severe environment challenge. Especially in hazardous gas, vapour, dust, hyperthermal and explosive conditions, such as oil refineries, chemical factories and mines.

#### Product Advantages

- MS7HDS3033V features 1080P(1920x1080) resolution and 30fps/s image quality. It supports both H.265 and H.264 dual-stream encoding.
- MS7HDS3033V features real-time Day/Night switching function. It provides 33X optical zoom and 16X digital zoom with 0.005Lux @B/W low illumination. The PTZ camera supports 0°~360° continuous rotation and can be accurate to±0.1°.
- MS7HDS3033V features IP68 protection level. It is made of 304/316 stainless steel material which represents the highest standards of environmental protection. Lens are made with toughened glass and equipped with wiper. It provides durability as well as legibility.
